

COVAX DATA'S POLYMER PLATFORM BEYOND DATA SECURITY...DATA CONTROL

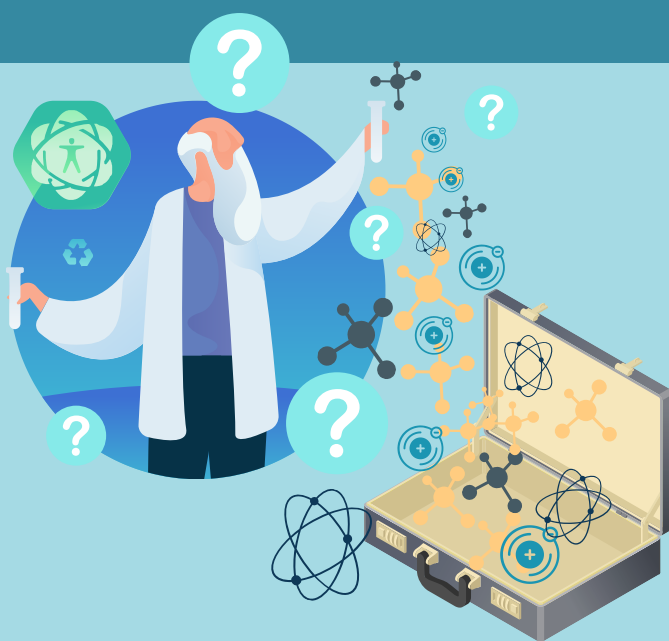

IMAGINE

A thief picks the locks to a gold vault only to find, not gold, but the atoms that make up gold!

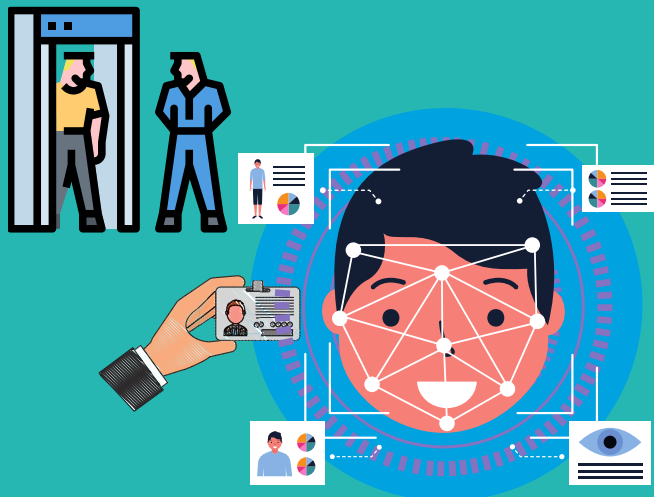

IMAGINE FURTHER

These atoms are mixed with innumerable atoms from an unknown number of other metals.

IMAGINE EVEN FURTHER

That the only way to reassemble the gold atoms, and only the gold atoms, is to enter the vault during business hours with a photo ID, a facial scan, and the permission of the vault owner.

THIS IS HOW COVAX POLYMER SECURES DATA

Enabling access only when done the **right way**, at the **right time**, from the **right device**, by the **right person**, for the **right reason**.

WHEN IT COMES TO PROTECTING
THE MOST VALUABLE COMMODITY
OF OUR TIME, DATA,
COVAX POLYMER PRESENTS
AN ENTIRELY NEW VISION.
