

## **EDUCATION COMPUTING CHALLENGES CONCERN MUCH MORE THAN JUST DIGITIZATION AND GOING PAPERLESS.**

The challenge is all about enabling both Higher Ed and K-12 institutions to leverage data in their current technology stacks. This provides staff and students with the highest quality education possible, while protecting sensitive and confidential data. Various regulatory compliance requirements amplify the need to integrate best security technology solutions into the education tech stack. Covax Polymer provides a smooth, compelling, and critical addition to the education data center. Polymer gives full visibility on file activity, events, and user behavior on critical data. Covax enables monitoring and reporting on data access and permissions for personally identifiable information (PII) and protected health information (PHI), for students, faculty, and staff.
